Minimum Entry Requirements

Each course has an entry selection requirement which is listed on our website. Entry selection requirements will vary from course to course and may include:

- Minimum age
- Prerequisite unit
- Language, literacy, and numeracy level (in line with the Australian Core Skills Framework levels)
- Physical health requirements

Disability, Health and Medical Conditions

If you have a disability, health, or medical condition, you are welcome to apply for our courses. Some of our courses have a physical health requirement. If you think that you may not meet the requirement for a specific course that you are interested in, we encourage you to contact us.

We may be able to make a reasonable adjustment – RTO so that we can accommodate your learning needs.

Reasonable adjustments may include, but are not limited to:

- Use of aids or assistive technology such as hearing aids, PC-tremor control, speech-to-text software etc.
- Use of external trained support persons such as note takers or interpreters
- The provision of learning materials in alternative formats
- Flexible scheduling

Please note that if you cannot meet the inherent requirements of the course, even with adjustments, then you will not be able to successfully complete the course. Where this is the case, MultiSkills will advise you as soon as practical and may recommend alternatives. These alternatives may include recommending another course or qualification (which may or may not be provided by MultiSkills).

Language, Literacy and Numeracy (LLN)

Each qualification has a minimum recommended entry level against the following five core skills against the Australian Core Skills Framework (ACSF):

- Learning
- Reading
- Writing
- Oral Communication
- Numeracy

The LLN Assessment used by MultiSkills is generated by LLN Robot <https://llnrobot.com.au/>. LLN Robot is the first assessment tool approved by the Federal Department of Education and Training and the VET Student Loans (VSL) Secretary after reviewing its accuracy in validly and reliably determining student LLN levels as part of the VSL implementation process. Being an approved tool, it is appropriately verified and evaluated using evidence-based assessment. Using trigger word and phrase analysis software developed by The Learning Resources Group, LLN Robot have determined the ACSF profile of every current national unit of competency from Certificate I to Diploma. The ACSF scores for units/qualifications are sourced directly from publications provided by training package owners (SSO/former ISC), otherwise they are calculated by the LLN Robot system.

Prospective students may be required to undertake a Language, Literacy and Numeracy (LLN) evaluation prior to an enrolment being accepted.

If a student does not meet the minimum level in each of the core skills, the RTO Delegate will evaluate whether a student could commence the course if they were provided additional support.

If you feel that you would need extra support, please let the enrolment officer know.
